TeTWIT

Teacher Trainee Women in Information Technology

PROPOSAL TO ESTABLISH

TETWIT

TEACHER TRAINEE WOMEN IN INFORMATION TECHNOLOGY (TETWIT) CLUBS IN COLLEGES OF EDUCATION IN GHANA

RATIONALE FOR THE FORMATION OF TEACHER TRAINEE WOMEN IN INFORMATION TECHNOLOGY (TETWIT) CLUBS IN COLLEGES OF EDUCATION IN GHANA

The formation of Teacher Trainee Women in Information Technology (TeTWIT) Clubs in Colleges of Education in Ghana is a timely and strategic intervention aimed at addressing persistent gender disparities in the acquisition, use, and leadership of information and communication technology (ICT) within teacher education. Currently, no structured or formally recognised women-focused ICT clubs operate across Ghana's Colleges of Education. This absence has contributed to limited peer support, low confidence, and reduced visibility of female teacher trainees in ICT-related academic and professional spaces. Establishing TeTWIT Clubs, therefore, responds to an identified institutional and national gap.

Despite national efforts such as the ICT in Education Policy and capacity-building initiatives under programmes like T-TEL, female teacher trainees remain underrepresented in advanced ICT use, digital innovation activities, and technology leadership roles within colleges. Cultural expectations, limited access to mentorship, gender stereotypes, and confidence gaps often discourage female trainees from fully engaging with technology beyond introductory coursework. Without targeted platforms that intentionally support women, these barriers remain largely unaddressed.

TeTWIT Clubs will provide a structured, supportive, and collaborative environment where female teacher trainees can develop practical ICT skills, share experiences, and build confidence in using digital tools for teaching, assessment, research, and professional practice. Through hands-on activities, peer learning, workshops, and guided projects, the clubs will complement formal ICT courses by translating theory into practice in a low-risk, encouraging setting tailored to women's needs.

The clubs will also serve as mentorship and leadership development platforms. By exposing members to female role models in educational technology, ICT facilitation, and digital entrepreneurship, TeTWIT Clubs will help challenge stereotypes that position technology as a male-dominated domain. This is particularly critical in teacher education, where today's trainees will shape the attitudes and competencies of future generations of learners, especially girls in basic schools.

Furthermore, the establishment of TeTWIT Clubs aligns directly with national development priorities and global commitments, including Ghana's Education Strategic Plan, the National Teachers' Standards, and Sustainable Development Goal 5 (Gender Equality) and Goal 4 (Quality Education). Empowering female teacher trainees with strong ICT competencies enhances instructional quality, supports inclusive digital pedagogy, and strengthens the overall capacity of the teacher workforce.

In the long term, TeTWIT Clubs will contribute to institutional capacity building by producing digitally confident female teachers who can serve as ICT champions,

coordinators, and innovators in schools and communities. Their impact will extend beyond the colleges into basic and secondary schools, where female teachers equipped with ICT skills can inspire young girls to engage positively with technology.

In summary, the formation of Teacher Trainee Women in Information Technology Clubs in Ghana's Colleges of Education is not merely an extracurricular initiative but a strategic response to a clear gender, skills, and leadership gap within teacher education. It offers a practical, sustainable mechanism for promoting equity, strengthening ICT integration in teaching and learning, and preparing a more inclusive and future-ready teaching workforce.

PROPOSAL TO ESTABLISH TETWIT CLUBS IN COLLEGES OF EDUCATION IN GHANA

1. Introduction

The digital age demands that educators not only teach, but also innovate using technology. Despite this, women remain underrepresented in the tech sector. The **Teacher Trainee Women in Information Technology (TeTWIT)** club aims to bridge this gap by equipping future female educators with ICT skills and leadership confidence.

2. Vision Statement

To become the leading national network that empowers female teacher trainees in Ghana with digital competencies for teaching, innovation, and social transformation.

3. Mission Statement

To build a generation of digitally skilled women educators through training, mentorship, networking, and advocacy in technology.

4. Objectives

- To promote digital literacy among female teacher trainees.
- To create platforms for coding, robotics, and ICT workshops.
- To mentor members for tech-related opportunities and careers.
- To advocate for gender equity in educational technology.
- To collaborate with tech industry leaders and educational stakeholders.

5. Proposed Activities

Activity	Description
Monthly Tech Meetups	Hands-on training in basic and intermediate IT skills
Annual National TeTWIT Summit	Networking, panel discussions, hackathons
Campus Digital Inclusion Week	Awareness campaigns, quizzes, exhibitions
Mentorship & Alumni Network	Pairing members with women professionals in tech
Online Skill Challenges	Mobile-based coding and digital creativity competitions

6. Target Audience

- Female teacher trainees in all public and private Colleges of Education in Ghana.
- Associate male members and interested stakeholders.

7. Club Structure

- Campus Executives (President, Secretary, Tech Lead, etc.)
- Zonal Coordinators (Northern, Middle, Southern)
- National Executive Board

8. Partnerships & Support Needs

We seek partnerships in the following areas:

- Capacity building (trainers, mentors)
- ICT equipment (laptops, routers, projectors)
- Event sponsorship
- Internships and scholarships for members
- Publicity and media coverage

9. Expected Impact

- Digital skills for over 10,000 female teachers within five years.
- Improved gender balance in ICT education leadership.
- Better integration of technology in Ghanaian basic education.

CONSTITUTION OF TETWIT (TEACHER TRAINEE WOMEN IN INFORMATION TECHNOLOGY)

Article 1: Name of the Club

The name of the organisation shall be **Teacher Trainee Women in Information Technology (TeTWIT)**.

Article 2: Motto

"Empower Her to Code the Future."

Article 3: Vision and Mission

Vision:
To be the leading national platform that empowers teacher trainee women in Ghana with ICT skills and leadership in digital education.

Mission:
To create and support a network of digitally literate and tech-savvy female educators who will transform education and bridge gender gaps in technology.

Article 4: Aims and Objectives

1. To enhance digital literacy among teacher trainee women.
2. To promote career development in IT through training and mentorship.
3. To engage in projects and events that empower women in tech.
4. To foster partnerships with stakeholders in education and technology.
5. To advocate for inclusive and gender-responsive technology policies.

Article 5: Membership

Section 1: Eligibility

- Open to all female teacher trainees in any accredited College of Education in Ghana.
- Associate membership is open to male allies, alums, and professionals interested in supporting the vision.

Section 2: Rights and Responsibilities

- Members have the right to attend meetings, access resources, vote (where applicable), and participate in all programs.
- Members are responsible for upholding the constitution and promoting the club's objectives.

Section 3: Termination of Membership

Membership may be revoked for misconduct, non-participation, or actions that violate the club's values.

Article 6: Club Governance

Section 1: Executive Positions (Campus Level)

Position	Responsibilities
President	Leads all activities and chairs meetings
Vice President	Supports the president and steps in as needed
Secretary	Records minutes, handles correspondence.
Treasurer	Manages finances, budgets, and dues
Tech Lead	Organises training and digital events
Welfare Officer	Ensures member support and engagement

Section 2: Zonal Coordinators

- Oversee coordination across regions: Northern, Middle, Southern.

Section 3: National Executive Board

- Coordinates national events, partnerships, and policies.

Article 7: Elections

1. Elections are held annually at the end of each academic year.
2. Candidates must be in good academic standing and active in club activities.
3. Voting is by secret ballot, and results are announced immediately after counting.

Article 8: Meetings

- **General Meetings:** At least once a month per campus.
- **Executive Meetings:** At least twice per semester.
- **National Conference:** Annually.

A quorum for decision-making is 50% + 1 of registered members present.

Article 9: Finance

1. Sources of funding include dues, donations, sponsorships, and grants.
2. Financial records must be transparent and audited annually.

3. At least two executive members must approve all transactions.

Article 10: Amendments

Any proposed amendment must be submitted in writing, discussed at a general meeting, and approved by two-thirds of members present.

Article 11: Dissolution

In the event of dissolution, assets shall be transferred to another women-in-tech educational initiative, approved by a general vote.

Declaration

This constitution was adopted on [Insert Date] and signed by the founding members of TeTWIT.

Subject: Request for Sponsorship Support – Empowering Teacher Trainee Women in ICT

Dear [Sponsor's Name],

I hope this message finds you well.

On behalf of the newly established **TeTWIT (Teacher Trainee Women in Information Technology)** initiative, I am pleased to extend a warm invitation for your esteemed organisation to partner with us in our mission to empower and equip **female teacher trainees** across Ghana with essential digital skills for the 21st-century classroom.

TeTWIT is a national club network being launched across all 46 public Colleges of Education in Ghana. Our goal is to build the digital capacity of over 10,000 future women educators through training in ICT, coding, and educational technology. Through hands-on workshops, mentorship, and career development programs, we aim to build a generation of tech-savvy female teachers ready to transform education in underserved communities.

We are currently seeking **sponsorship support** to help us achieve the following:

- Organise campus-based and national ICT training events
- Provide laptops, internet routers, and basic coding kits

- Host the **Annual National TeTWIT Summit**
- Develop an online learning platform for member engagement

Your organisation's **commitment to social impact, gender equality, and technology** makes you an ideal partner in this cause. In return, we are happy to offer:

- Branding opportunities on our promotional materials, banners, T-shirts, and social media
- Media visibility during major events and conferences
- The opportunity to serve as keynote speakers or panellists
- Impact reports highlighting your contribution to digital inclusion

We would be honoured to schedule a meeting or call to explore this partnership further. Please find our detailed proposal attached for your review.

Thank you for considering this opportunity to shape the future of women in education and technology. We look forward to your positive response.

Warm regards,

Pious Akwasi Sarpong
